INTERNSHIP

ACCENT TECHNOLOGY: GRAPHICS ANIMATION

• Graphic animation is a variation of other graphic materials, such as newspaper and magazine clippings, by transforming static content into dynamic visual media.

LIVE STREAM TECHNOLOGY: HOTEL MANAGEMENT

 In today's world booking is very wide trend. With the help of this software you can book room as yours required

Project: Image-Based Plant Disease Detection

 Developed a system using Convolutional Neural Networks (CNN) and OpenCV to detect and identify plant diseases through leaf image analysis. Automated the disease detection process by comparing leaf images against a dataset, significantly improving efficiency and accuracy in agricultural monitoring and disease management.
